ANNEX 8: Projects Acquired and Implemented

Projects (co-)acquired, led*, led within the University**, or participated in***

Below find the projects that have been acquired as part of team work with colleagues; in some cases I led the project and did most of the execution*; in some cases I led the project only within the University but was part

of the international team that wrote the proposal and executed it**, and in some cases I was the nominal head (because of seniority) because a colleague did most of the writing work or even led the process. This list has been reconstructed based on the project publications. However, the budgets were not always accessible as the University had not kept past records, so where this was not available I have reconstructed the time that I spent on the project from memory and this is marked in italics.

54. Topic: CLIFF: Climate Change and Fossil Fuels. This project (2021-2026). which has received funding (€ 2.5 Million) from the European Research Council (ERC) under the European Union's Horizon 2020 research and innovation programme (contract number 101020082).
